

ARIZONA STATE SENATE
Fifty-Sixth Legislature, First Regular Session

AMENDED
FACT SHEET FOR S.B. 1253

sex offender registration; school notification

Purpose

Requires a person who must be registered as a sex offender and who is the legal guardian of a student at a public or private school to annually provide notice of the person's registration status to the principal or administrator of the school within 10 days after the student's enrollment in the school.

Background

When a person who is required to register on the sex offender registry is released from confinement, the agency that had custody of the person must enter the person's identifying information into the notification database within 72 hours of the person's release. Community notification requirements for level two and three sex-offenders require the notification to be disseminated in a nonelectronic format to the surrounding neighborhood, area schools, appropriate community groups and prospective employers as well as be given to the local electronic and print media. Local law enforcement agencies responsible for notification maintain information on level one offenders and may disseminate it to other law enforcement agencies or parties who live with the offender ([A.R.S. § 13-3825](#)).

There is no anticipated fiscal impact to the state General Fund associated with this legislation.
